

SET - C

Que 1 :

Write a C program to find and print all Prime numbers within a given range of two integers, N1 and N2.

The program should read N1 and N2 from the user and display all Prime numbers in this range.

Sample input : N1 = 1 & N2 = 20

Sample output : 2, 3, 5, 7, 11, 13, 17, 19

.....

Que 2 :

Write a C program to given pattern.

```

    *
  * * *
* * * * *
* * * * * * *
* * * * * * * * *
* * * * * * *
  * * * * *
    * * *
      *
```

.....

Que 3 :

Write a C program to given pattern.

* * * * *

* * *

* * *

* * * * *

* * *

* * *

* * * * *

.....

Que 4 :

Write a C program to find the second largest element in an array.

Sample input :

Enter the number of elements in the array: 10

Enter 10 elements: 3 4 1 9 8 88 9 88 88 1

Sample output :

Second largest element = 9

.....

Que 5 :

Write a C program to print all the unique elements from an array.

Sample input :

Enter the number of elements in the array: 6

Enter 6 elements: 10 20 20 30 40 10

Sample output :

Unique elements in the array: 30 40

.....
